**The US foreign secretary Mike Pompeo has given 12 conditions for any agreement with Iran.**

**1 Declare to the International Atomic Energy Agency (IAEA) a full account of the prior military dimensions of its nuclear programme and permanently and verifiably abandon such work in perpetuity.**

**# World Nuclear Disarmament, a demand of all nations, is approved as a goal, but it is necessary that the USA and all the other countries who have nuclear activities implement it too.**

**2 Stop enrichment and never pursue plutonium reprocessing, including closing its heavy water reactor.**

**# The acceptance depends on implementation by all countries active in nuclear fields. Exclusive rights cannot be accepted for any nation or group of people. Giving a mass murdering weapon to a government such as the US Regime, for bullying other countries, and not to the others to defend themselves is totally rejected.**

**3 Provide the IAEA with unqualified access to all sites throughout the entire country.**

**# Inspections by the IAEA should also be authorised at all the US nuclear bases and in all the other countries**

**active in the nuclear fields as well.**

**4 End its proliferation of ballistic missiles and halt further launching or development of nuclear-capable missile systems.**

**# The same should be forbidden in all other countries. Because making war is uncivilised and pure barbarianism.**

**5 Release all US citizens as well as citizens of US partners and allies.**

**# Reciprocally, the USA should also release all its prisoners from all other lands.**

**6 End support to Middle East "terrorist" groups, including Hezbollah, Hamas and Islamic Jihad.**

**# The USA should also stop creating and supporting all islamist terrorist groups like Al-Qaida, Taliban, and armies such as Daesh(ISIS), Al Shabab, Al-Nusra and ...**

**7 Respect the sovereignty of the Iraqi government and permit the disarming, demobilisation and reintegration of Shia militias.**

**# Good, the USA should also respect the sovereignty of Iraq and should not have occupied the country with its armed forces for many years starting with the invasion in 2003, which was based on pure lies.**

**# And the USA should pay compensation to Iraq for all the damages caused in Iraq since 2003 for not respecting Iraq's sovereignty, under UN supervision.**

**8 End its military support for the Houthi rebels and work towards a peaceful, political settlement in Yemen.**

**# The USA also should stop its support for Saudi's interference in Yemen's internal problems.**

**9 Withdraw all forces under Iran's command throughout the entirety of Syria.**

**# Iran was invited by the legal government of Syria to help in the fight against the US terrorist ISIS. And it will leave as soon as it is asked to do so by the Syrian government.**

**But the US forces in Syria are there illegally. They should get out at once. Deceiving the world, establishing ISIS and then entering Syria without permission to fight against ISIS (!) cannot be tolerated.**

**10 End support for the Taliban and other "terrorists" in Afghanistan and the region and cease harbouring senior al-Qaeda leaders.**

**# The USA and its NATO have occupied Afghanistan on the base of a planned conspiracy since 2001, and recently have transferred their ISIS army to Afghanistan and are causing constant chaos in the country. They have been plundering the Afghans' resources since 2001, while Afghans are crushed under poverty with no education. Nearly 10,000 US troops are in Afghanistan.**

**They should all get out immediately.**

**11 End the Islamic Revolutionary Guard corps-linked Quds Force's support for "terrorists" and "militant" partners around the world.**

**# Similarly, the USA, who created Al-Qaida with Saudi help in 1976 in Afghanistan, Taliban, and then – again with Saudis help – in Pakistan in 1992, ISIS (Daesh), in 2010 in Iraq-Syria, Al-Nusra, Al-**

**Shabab and many others in the Middle-East and Africa, still with the help of Saudis & Co, must stop all this. The world is sick and tired of the USA's long stealing hand, helping itself to the other nations' natural resources.**

**12 End its threatening behaviour against its neighbours, many of whom are US allies, including its threats to destroy Israel and its firing of missiles at Saudi Arabia and the United Arab Emirates, and threats to international shipping and destructive cyberattacks.**

**# Similarly, the USA must stop threatening all the other countries, using sanctions and attacks. This kind of policy started at the end of WW2, when the US misused the atom bomb. Look at the horrible disaster made by the USA in Palestine just a few days ago. Palestine is the country of Palestinians, no matter how many embassies are raised by the USA without the permission of Palestinians. They must pack and go. One government for one country, and that is the Palestinian government for Palestine.**

**Colonialism is like 18<sup>th</sup> and 19<sup>th</sup> century pre-antibiotics incurable Syphilis. But it is cured in the 20<sup>th</sup> century and is over! And in the 21<sup>st</sup> century is just not acceptable.**

**All the cheated Jews by the Zionists should leave Palestine and go back to their homelands. On this planet there is no such country called Israel. No matter how high the rate of killings is, it would never allow the parasite US colonialists to be identified as human beings. The USA should stop blackmailing and supporting reactionary countries such as Saudis & Co.**

**Regime change is a duty of the nations themselves and not the USA. This World is a place for collective leadership.**
